Mengesahkan,

**DOSEN PEMBIMBING KERJA PRAKTIK SELAKU
KETUA JURUSAN TEKNOLOGI INFORMASI**

Ir. Asroni, S.T., M.Eng.

NIDN. 0526047401

KATA PENGANTAR

Al-hamdu lillahi rabbil 'alamin, puja dan puji dan syukur penulis panjatkan kepada Allah SWT. Karena-Nya serta rahmat dan hidayat-Nya yang diberikan pelaksanaan dan penyusunan laporan Kerja Praktik (KP) yang berjudul “Pengembangan Modul pada Website Sistem Informasi dengan menggunakan PHP NATIVE” dapat diselesaikan dengan lancar.

Laporan Kerja Praktik ini merupakan laporan Kerja Praktik di CV Gama Studio. Penulis menyadari bahwa penulisan laporan Kerja Praktik ini terwujud berkat uluran tangan dari berbagai pihak. Maka dari itu pada kesempatan kali ini, penulis ingin mengucapkan terimakasih sebesar – besarnya kepada semua pihak yang telah membantu penulis untuk menyelesaikan Laporan Kerja Praktik ini, yaitu kepada:

1. Allah SWT atas segala tuntunan, kemudahan, kesehatan, dan keselamatan yang telah diberikan kepada penulis, sehingga penulisan Laporan Kerja Praktik ini bisa berjalan dengan baik.
2. Kedua orang tua dan keluarga penulis yang selalu memberikan dukungan serta kalimat motivasi sehingga dapat menyelesaikan kerja praktik dan menyelesaikan Laporan Kerja Praktik di CV Gama Studio.
3. Bapak Asroni S.T., M.Eng. selaku Ketua Jurusan Teknologi Informasi Universitas Muhammadiyah Yogyakarta.
4. Bapak Asroni S.T., M.Eng. selaku Dosen Pembimbing Kerja Praktik.
5. Bapak Syahli Lilipali, S.Kom selaku Direktur Creative Gama Studio dan Pembimbing Kerja Praktik.
6. Yasmina, Indah, Fadhil, Bimbay, Faisal, Rio, Sekar selaku kerabat seperjuangan kerja praktik yang telah rela berjuang bersama-sama untuk menyelesaikan kerja praktik ini.
7. Dan terakhir, kepada semua pihak yang berperan dalam pelaksanaan penulisan dan penyelesaian laporan penulis, sehingga laporan ini dapat diselesaikan dengan lancar yang tidak dapat penulis sebutkan satu – persatu.

Saya selaku penulis telah menyadari penulisan Laporan Kerja Praktik ini masih terdapat banyak kekurangan, maka dari itu saya selaku penulis mengharapkan adanya kritik dan saran yang membangun dari pembaca. Semoga Allah SWT. memberikan balasan yang berlipat ganda dari segala kebaikan yang telah dilakukan. Semoga penyusunan laporan ini kedepannya akan bermanfaat bagi semua pihak.

Wassalamualaikum Warahmatullahi Wabarakatuh

Yogyakarta, 28 Oktober 2022

Penulis,

Adelia Pingkan Azzahra

------------------------------------	---

BAB I

PENDAHULUAN

1.1 Latar Belakang

Perkembangan jaman saat ini berkembang dengan pesat, ditandai dengan banyaknya perkembangan dalam segala bidang salah satunya ada di bidang teknologi informasi. Bahkan disaat berbagai negara terkena dampak pandemic sekalipun perkembangan teknologi informasi tidak usah diragukan lagi, karena perkembangannya tetap berjalan dengan pesat dan semestinya.

Di era sekarang yang bertambah canggih ini, malah membuat teknologi informasi sangat diperlukan keberadaannya. Apalagi saat didera pandemic covid sekalipun, banyak berbagai kalangan menggunakan dan memanfaatkan sistem informasi, salah satunya dengan membuat website untuk sebuah sekolah maupun universitas. Karena hanya dengan bermodal klik saja pada website atau aplikasi, nantinya kita tidak perlu merasa kesulitan atau merasa repot saat akan mendata sebuah data.

Creative Gama Studio (CGS) merupakan perusahaan yang berdiri pada bulan Desember 2005 di Yogyakarta dan bergerak di bidang Teknologi Informasi yang beralamat di Jalan Tatabumi Selatan No.109, Kel, Banyuraden, Kec. Gamping, Sleman, Yogyakarta. Creative Gama Studio (CGS) juga merupakan perusahaan yang berbasis riset dan pengembangan teknologi yang selalu up to date. Creative Gama Studio juga memiliki komitmen untuk menjadi sebuah sentra industri berbasis IT yang selalu berorientasi pada kepuasan konsumen dengan mengedepankan professionalitas, integritas, dan kreatifitas.

Pada kerja praktik kali ini kami di berikan sebuah project berbasis website mengenai perbaikan bug dan menambah beberapa tambahan fitur yang diminta oleh pembimbing kami saat kerja praktik pada website sistem Informasi Akademik Universitas Efarina. Sistem Informasi Akademik merupakan sistem yang dibuat untuk pengolahan data terkhususnya mahasiswa-i dan dosen Universitas Efarina.

Website ini didesain dan dikembangkan untuk mempermudah mahasiswa-i serta dosen untuk kegiatan administrasi akademik. Yang dimana website ini dibuat oleh

CV Creative Gama Studio, dimana perusahaan ini sudah sangat berpengalaman dalam bidang sistem informasi berbasis web. Harapannya dari penggunaan website ini dapat membantu mahasiswa-i, dosen serta membantu kinerja pegawai dan memudahkan admin.

1.2 Rumusan Masalah

Berdasarkan latar belakang diatas, maka dapat dirumuskan permasalahan yang ada, yaitu:

1. Bagaimana memperbaiki bug yang terdapat pada web?
2. Bagaimana membuat CRUD untuk pengolahan data web?
3. Bagaimana membuat tampilan website menjadi menarik?

1.3 Tujuan

Kemudian Adapun tujuan dari laporan ini, yaitu:

1. Memperbaiki bug error yang terdapat pada web.
2. Mempermudah akses CRUD.
3. Memberikan kemudahan serta kenyamanan bagi pengguna website dengan tampilan yang sederhana, namun modern serta dapat dengan mudah dipahami.

1.4 Manfaat

1. Mengimplementasikan pengetahuan tentang Teknologi Informasi.
2. Merealisasikan pekerjaan dalam lapangan kerja sesungguhnya.
3. Meningkatkan kemampuan yang telah didapat saat perkuliahan, sehingga dapat memiliki kesempatan untuk mengimplementasikan ilmu yang telah kita dapat dalam perkuliahan yang telah berlangsung.

1.5 Waktu dan Tempat pelaksaan Magang

1.5.1 Lokasi Tempat Pelaksaan Magang

Kegiatan magang ini dilakukan selama 1 bulan, Adapun keterangan lokasi magang sebagai berikut:

1. Nama Instansi : CV Creative Gama Studio
2. Alamat : Jl. Tata Bumi Timur No.109, Gamping, Area Sawah, Banyuraden, Sleman, Kabupaten Sleman, Daerah Istimewa Yogyakarta 55293.

1.5.2 Waktu Pelaksanaan Magang

Pelaksanaan Kegiatan Kerja Praktik ini kami lakukan selama 1 bulan, yaitu dimulai pada tanggal 7 Maret 2022 dan selesai pada 10 April 2022. Pelaksanaan kegiatan kerja praktik ini dilakukan dengan dua metode yaitu secara *Offline* dan WFH.

WFH merupakan pengertian dari *Work From Home* yang merupakan perjanjian kerja dimana karyawan dapat bekerja secara daring dan bekerja di rumah, kemudian Adapun melaksanakan kerja praktik secara *Offline*, yang dimaksudkan adalah kita melaksanakan pekerjaan ditempat kerja praktik dan dibimbing langsung oleh Pembina lapangan.

Jadwal Pelaksanaan magang dimulai pada tanggal 7 Maret 2022 – 10 April 2022, dapat dilihat pada Tabel 1 yang berada di bawah ini.

Table.1 merupakan table dari Jadwal Kerja Praktik yang dilaksanakan.

Minggu	Senin	Selasa	Rabu	Kamis	Jumat	Sabtu
	7	8	9	10	11	12

BAB II

PROFIL PERUSAHAAN

2.1 Gambaran Umum Instansi

Creative Gama Studio merupakan perusahaan yang berdiri pada bulan Desember 2005 di Yogyakarta "Kota Budaya, Pariwisata, dan Pendidikan" dan bergerak di bidang Teknologi Informasi dengan fokus bisnis berupa Produk dan Layanan diantaranya pembuatan CD Profil dan Tutorial, Desain dan Pengembangan *Website*, Aplikasi Sistem Informasi, serta Jasa Konsultasi. (Cv. Creative Gama Studio, 2005)

Berbasis riset dan pengembangan teknologi yang selalu up to date, Creative Gama Studio memiliki komitmen untuk menjadi sebuah sentra industri berbasis IT yang selalu berorientasi pada kepuasan konsumen dengan mengedepankan professionalitas, integritas, dan kreatifitas.

Dengan didukung oleh para tenaga profesional di bidangnya, kualitas produk dan layanan maksimal, serta harga yang relatif lebih terjangkau, Creative Gama Studio siap memberikan nuansa dan warna baru dalam bidang Teknologi Informasi (IT) di wilayah Yogyakarta dan Indonesia pada umumnya.

Creative Gama Studio mengkhususkan diri dalam desain website, pengembangan website dan Aplikasi berbasis web yang berbeda, dengan pengembangan dan penuangan ide – ide yang menarik dan inovasi dapat memberikan keuntungan dan kemudahan untuk para konsumen dengan pelayanan terbaik.

2.2 Logo

CV. Creative Gama Studio mengkhususkan diri dalam desain web, pengembangan web dan Aplikasi berbasis web yang berbeda, yang memberikan pelayanan terbaik untuk para konsumen. Berikut merupakan logo Creative Gama Studio:

Gambar 2. 1 logo perusahaan Creative Gama Studion

Pada Gambar 2.1 terdapat logo dari perusahaan kerja praktik kami yaitu *CV. Creative Gama Studio*.

2.3 Struktur Organisasi

Struktur organisasi perusahaan Creative Gama Studio:

Gambar 2. 2 Struktur Organisasi perusahaan Creative Gama Studio

Pada Gambar 2.2 Merupakan gambar dari struktur organisasi dari perusahaan *CV. Creative Gama Studio*.

2.4 Persyaratan kerja sama Creative Gama Studio

1. Perusahaan / personal
2. Tanda tangan kontrak kerjasama
3. Masa kerjasama berlaku selama perusahaan kami masih berdiri
4. Mendaftar menjadi member ke kami dengan biaya **Rp. 25.000.000** maka Anda mendapatkan *software-software* berbasis *web* sebagai berikut :
 - *Website* profil perusahaan untuk penjualan dan penawaran *software* beserta domain dan hosting 1GB 1 tahun
 - *Software SMS Gateway NEWSMCGS* lengkap dengan *source code*
 - *Software SMS Gateway Akademik* lengkap dengan *source code*
 - *Software Akademik Sederhana* Lengkap dengan *source code*
 - *Software Laundry* Lengkap dengan *source code*
 - *Software Penjualan/IPOS* Lengkap dengan *source code*
 - *Software Maintenance Kendaraan* Lengkap dengan *source code*
 - *Software Layar Informasi* Lengkap dengan *source code*
 - *Software Hotel Sederhana* Lengkap dengan *source code*
 - *Software Penerimaan Siswa Baru (SD, SMP, SMA/SMK)* Lengkap dengan *source code*
 - *Software Elearning/ujian/quiz online* Lengkap dengan *source code*
 - *Software Manajemen persuratan* Lengkap dengan *source code* (Cv. Creative Gama Studio, 2005)

2.5 Produk

Adapun produk penjualan, *Creative Gama Studio*

1. *Website*
2. *Software SMS Gateway*
3. Software berbasis web
4. Sistem Informasi

BAB III

LANDASAN TEORI

3.1 *Visual Studio Code*

Visual Studio Code merupakan sebuah aplikasi editor *code open source* yang dikembangkan oleh *Microsoft* untuk sistem operasi *Windows, Linux, dan MacOS*. *Visual Code* memudahkan dalam penulisan *code* yang mendukung beberapa jenis pemrograman, seperti *C++, C#, Java, Python, PHP, GO*. V (jurnal ilmiah INTECH) (Unknown, 2019)

3.2 *PHPMyAdmin*

PHPMyAdmin adalah sebuah *software* yang berbentuk seperti halaman situs yang terdapat pada *web server*. Dengan kata lain, *PHP* merupakan bahasa pemrograman web yang bersifat sebagai *server*, memudahkan dalam pengelolaan database serta dapat digunakan dalam file *HTML*. (Sadeli, Dreamweaver CS6 Untuk Orang, 2013)

3.3 *XAMPP*

Riyanto (2010:1) mengemukakan bahwa *XAMPP* adalah seperangkat paket PHP dan MySQL yang memiliki basis *open source*, dimana *software* ini dapat digunakan sebagai alat pembantu untuk mengembangkan aplikasi berbasis PHP. (italia, 2022)

3.4 *Cpanel*

Pengertian data panel menurut Winarno (2007:2.5) adalah jenis data gabungan antara data runtut waktu dengan data seksi silang (sebagai contoh, data berbagai perusahaan dan dikumpulkan dari waktu kewaktu).

Fungsi *Cpanel*: *cPanel* adalah panel kontrol yang memudahkan penggunanya dalam mengelola situs *web* dan *server*. Panel kontrol ini memungkinkanmu untuk mempublikasikan situs web, mengelola *hosting* dan domain, mengatur file *website*, membuat akun email, dan masih banyak lagi. (Wpbeginner) (Adieb, 2020)

3.5 *HTML*

Fungsi *HTML* yang lebih spesifik yaitu :

1. Membuat halaman web.
2. Menampilkan berbagai informasi di dalam sebuah *browser* Internet.
3. Membuat link menuju halaman web lain dengan kode tertentu (*hypertext*). (KEMENDIKBUD, n.d.)

3.6 CSS

Menurut Abdulloh (2018:45) “CSS yaitu dokumen web yang berfungsi mengatur elemen HTML dengan berbagai property yang tersedia sehingga dapat tampil dengan berbagai gaya yang diinginkan”. (Muhammad)

3.7 PHP (*Hypertext Preprocessor*)

Pengertian PHP menurut Anhar (2010:23) “PHP adalah (PHP Hypertext Preprocessor) adalah bahasa pemrograman web berupa script yang dapat diintegrasikan dengan HTML”. (Safitri, 2015)

3.8 Database

Database adalah kumpulan informasi yang disimpan di dalam komputer secara sistematis sehingga dapat diperiksa menggunakan suatu program komputer untuk memperoleh informasi dari basis data tersebut. *Database* adalah representasi kumpulan fakta yang saling berhubungan disimpan secara bersama sedemikian rupa dan tanpa pengulangan (redundansi) yang tidak perlu, untuk memenuhi berbagai kebutuhan.

Database merupakan sekumpulan informasi yang saling berkaitan pada suatu subjek tertentu pada tujuan tertentu pula. *Database* adalah susunan record data operasional lengkap dari suatu organisasi atau perusahaan, yang diorganisir dan disimpan secara terintegrasi dengan menggunakan metode tertentu dalam komputer sehingga mampu memenuhi informasi yang optimal yang dibutuhkan oleh para pengguna. (DATABASE, 2020-2022)

3.9 Website

Website adalah halaman informasi yang disediakan melalui jalur internet sehingga bisa diakses dimanapun selama anda terkoneksi dengan jaringan internet”. *Website* merupakan komponen atau kumpulan komponen yang terdiri dari teks, gambar, suara, animasi, sehingga lebih merupakan media informasi yang menarik untuk dikunjungi. (Adelheid, 2015)

3.10 Web Server

Web Server adalah perangkat lunak server yang berfungsi untuk menerima permintaan dalam bentuk situs web melalui *HTTP* dan *HTTPS* dari klien itu, yang dikenal sebagai *browser web* dan mengirimkan kembali (reaksi) hasil dalam bentuk situs yang biasanya merupakan dokumen *HTML*. (Supono, 2016)

BAB IV

PERANCANGAN

4.1 Alat dan bahan

Dalam proses pembuatan web ini menggunakan alat dan bahan untuk mendukung berjalannya perancangan dan pembuatan website.

4.1.1 Alat

Alat yang digunakan untuk membuat aplikasi ini , berupa perangkat keras dan perangkat lunak yaitu :

a. Perangkat Keras

Memory: 8GB DDR4 2666MHz RAM.

Hard Drive: 1TB HDD.

Graphics: NVIDIA GeForce GTX 1050 4GB GDDR5.

Optical Drive: No ODD.

Gaming laptop.

Display: 15.6 Inch (16:9) LED backlit FHD (1920x1080) Display.

Processor: Intel Core i7-8750H.

Graphics: NVIDIA GeForce GTX 1050 4GB GDDR5.

Operating System: Windows 10 (64bit)

b. Perangkat Lunak

1. Sistem Operasi Windows 10
2. Xampp
3. Visual Studio Code
4. PhpMyAdmin

3.1.2 Bahan

Bahan yang digunakan dalam proses pembuatan website ini adalah data yang disediakan oleh HRD CV Creative Gama Studio.

4.2 Analisis Kebutuhan

Berdasarkan latar belakang di atas tugas yang diberikan oleh Project Manager yaitu bagaimana kebutuhan yang berisi proses atau layanan apa saja yang nantinya harus disediakan oleh sistem. Adapun kebutuhan dari website yang diperlukan sebagai berikut :

- a. Admin dapat login
- b. Admin dapat menambah user
- c. Admin dapat mengubah password setelah login
- d. Admin dapat memanajemen akun user
- e. Admin dapat mengedit menu instansi
- f. Admin dapat menambah data instansi
- g. Admin dapat mengedit data instansi
- h. Admin dapat menghapus data instansi

BAB V

IMPLEMENTASI

5.1 Rancangan Database

Pada bagian ini merupakan database dari Sistem Informasi Efarina yang menggunakan LocalHost, website efarina pada fitur dosen memiliki beberapa database yang dibutuhkan setidaknya ada 11, yaitu:

5.1.1 Database

The screenshot shows the phpMyAdmin interface with the following details:

- Server:** localhost
- Database:** katarjog_web
- Table:** jabatan

The table structure is as follows:

	id_jabatan	jabatan
1	1	Dosen
2	2	Asisten Ahli

Below the table, there are several buttons and options:

- Show: 30 row(s) starting from record # 0
- Sort by key: None
- + Options
- Check All / Uncheck All With selected
- Show: 30 row(s) starting from record # 0
- Query results operations: Print view, Print view (with full texts), Export, CREATE VIEW
- Bookmark this SQL query: Label (empty), Let every user access this bookmark, Bookmark this SQL query

Gambar 5. 1 Database Jabatan

Pada gambar 5.1 tampilan dari database untuk bagian jabatan pada dosen, Pada bagian ini diisi dengan id_jabatan dan nama dari jabatan dosen.

Gambar 5. 2 Database Dosen

Pada gambar 5.2 database dari dosen, database dosen ini nantinya akan digunakan untuk bagian table dosen yang berisi:

1. Kode_Dosen
2. Nama_dosen
3. Password
4. Alamat
5. Telpon
6. Jenis_kelamin
7. Tempat_lahir
8. Tanggal_lahir
9. Pendidikan
10. Jabatan
11. Golongan
12. Status_dosen
13. Special_Mengajar

	id_mengajar	kode_dosen	kdmatkul	id_jadwal	dosenlain	jumlahtatapmuka	tahun	kdjur	semester
	1	HB	BIU00002	11		9	2017	BI00001	1
	2	AP	BIU00001	6		6	2017	BI00001	1

Gambar 5. 3 Database Dosen Mengajar

Pada gambar 5.3 disebutkan gambar database dari bagian dosen mengajar, pada database ini nantinya akan diisi dengan:

1. Id_mengajar
2. Kode_Dosen
3. Kdmatkul
4. Id_jadwal
5. Dosenlain
6. Jumlahtatapmuka
7. Tahun
8. Kdjur
9. Semester

The screenshot shows the phpMyAdmin interface with the following details:

- Server:** localhost
- Database:** katarjog_web
- Table:** kelas
- Table Data:**

	kd_kelas	nm_kelas	ruang	mks_mhs
<input type="checkbox"/>	B1A	Mikrobiologi 1A	R1	25
<input type="checkbox"/>	B1B	Mikrobiologi 1B	R2	40
<input type="checkbox"/>	B1C	Mikrobiologi 1C	R3	20
<input type="checkbox"/>	B1A	Mikrobiologi 1A	R1	25
<input type="checkbox"/>	B1B	Mikrobiologi 1B	R2	40
<input type="checkbox"/>	B1C	Mikrobiologi 1C	R3	20
- Query results operations:**
 - Print view
 - Print view (with full texts)
 - Export
 - Create View
- Bookmark this SQL query:**

 Let every user access this bookmark

Gambar 5. 4 Database Kelas

Pada gambar 5.4 disebutkan bagian dari database kelas, database ini sendiri nantinya akan digunakan untuk input kelas yang akan diampu dosen. Yang berisi:

1. Kdkelas
2. Nmkelas
3. Ruang
4. mks_mhs

Gambar 5. 5 Database bagian status_keluarga

Pada gambar 5.5 disebutkan database yang akan digunakan dibagian table Riwayat keluarga dosen, terdapat status_keluarga yang akan ditampilkan pada bagian table.

Berisikan :

1. id_status
2. nama_status

Gambar 5. 6 Database Riwayat_Keluarga

Pada gambar 5.6 disebutkan database untuk mengisi table dari Riwayat keluarga, yang berisikan atribut sebagai berikut :

1. id_rikel
2. nama
3. status
4. umur
5. jenis_kel

untuk mengisi bagian pada table Riwayat keluarga dosen.

Gambar 5. 7 Database Golongan

Pada gambar 5.7 disebutkan bagian dari database golongan, golongan ini nantinya akan dipakai sebagai peng-inputan golongan yang sesuai dengan dosen.

Hasil

Pada bagian ini ditampilkan desain dari menu halaman web yang telah dirancang dan dibuat dengan sesuai kebutuhan pengguna.

5.1.2 Halaman Login

Halaman ini merupakan halaman untuk masuk sebagai admin, masuk dari localhost dan dari sistem informasi akademik universitas efarina website secara langsung.

Gambar 5. 8 Halaman Login dari sisi Localhost dan Universitas Efarina

Pada gambar 5.8 ditampilkan tampilan saat user akan melakukan login pada website Universitas Efarina. Dengan memasukan id dan password maka user dapat login sebagai user untuk website aplikasi tersebut.

5.1.3 Halaman User Profile

Gambar 5. 9 Halaman User profile

Pada gambar 5.9 ditampilkan tampilan bagian halaman dari user profile, saat baru login user akan masuk pada laman tersebut terlebih dahulu sebelum memilih bagian lain.

Data Kepergawaihan

No.	Foto	Kode Dosen	NIM/NIDK	NIP	NIK	Name	Tempat/Tgl Lahir	JK	Agama	Alamat	Telepon/No.HP	Jabatan	Kepangkatan

The screenshot shows a web application interface for managing academic information. On the left, there is a vertical sidebar with a dark blue header containing icons and labels for various modules: Master Setting, Halaman Alumni, PMB, Kepengawaihan, Kemahasiswaan, Keuangan, Profil, and Logout. The main content area displays a form titled "Tambah Dosen". The form consists of several input fields:

- Tempat / Tanggal Lahir: Includes fields for "Tempat lahir..." and "Tanggal lahir...".
- Jenis Kelamin: Shows "LakUkai" as selected.
- Agama: Shows "- Pilih Agama -" as selected.
- Alamat: An empty text input field.
- Telp/No.HP: An empty text input field.
- Jabatan: Shows "- Pilih Jabatan -" as selected.
- Kepangkatan: Shows "- Pilih Kepangkatan -" as selected.
- Status Pegawai: Shows "Dosen Tetap" as selected.
- Tanggal Masuk Kerja: An empty text input field.
- Status Dalam Keluarga: Shows "- Pilih Status Keluarga -" as selected.
- Foto: A file input field with the placeholder "Choose File No file chosen".
- Hak Akses: A dropdown menu showing "Izinkan" as selected.

At the bottom of the form are two buttons: "Simpan" (Save) in a dark blue box and "Batal" (Cancel) in a red box.

Gambar 5. 11 Halaman Tambah Data Dosen

Pada gambar 5.11 merupakan bagian dari halaman penambahan data untuk menambah data kepegawaian dosen.

Gambar 5. 12 Halaman dari fitur detail untuk melihat data dosen

Pada gambar 5.12 ditampilkan tampilan dari fitur detail yang diberikan pada sistem website untuk melihat detail dari dosen yang ingin dilihat.

Gambar 5. 13 Tampilan respon dari aplikasi saat kita akan menghapus sebuah data

Pada gambar 5.13 ditampilkan tampilan pada bagian respon aplikasi pada saat kita akan menghapus salah satu data yang akan dihapus.

Gambar 5. 14 Tampilan halaman saat akan mengedit data

Pada gambar 5.14 merupakan sebuah respon pada saat kita akan mengedit data pada aplikasi, aplikasi website ini akan membawa kita kebagain laman edit untuk data dosen yang dipilih.

BAB VI

KESIMPULAN

6.1 Kesimpulan

Dari hasil Kerja Praktik yang sudah dijalankan diharapkan dapat menambah pengetahuan secara nyata dalam menerapkan ilmu yang diperoleh dari proses perkuliahan dan dapat bermanfaat untuk peserta Kerja Praktik dengan harapan siap terjun secara materi maupun secara mental dalam dunia kerja yang akan dihadapi oleh mahasiswa setelah lulus dari pendidikan kuliah ini.

Serta mampu beradaptasi dalam lingkungan apapun dengan mengandalkan kemampuan dan pengetahuan yang telah didapat dari perkuliahan di Universitas Muhammadiyah Yogyakarta. Berdasarkan uraian diatas dapat diambil kesimpulan sebagai berikut:

1. Peserta Kerja Praktik ditumbuhkan pengetahuan dan mentalnya setelah menghadapi masalah pada dunia kerja secara langsung.
2. Pengenalan mengenai dunia kerja mengharuskan mahasiswa memiliki tanggung jawab, ketelitian, dan keseriusan dalam mengatasi masalah yang dihadapi serta kedisiplinan baik disiplin waktu dan disiplin pengerjaan tugas dan memiliki kualitas kerja yang baik dan benar.
3. Peserta Kerja Praktik mendapat ilmu dan pengalaman langsung dalam memberikan kompetensinya kepada dunia kerja yang membutuhkan.

6.2 Saran

Dalam pelaksanaan Kerja Praktik, penulis mempunyai beberapa saran kepada instansi ataupun penyelenggara praktik kerja lapangan maupun Universitas Muhammadiyah Yogyakarta, adapun saran yang diberikan antara lain :

1. Kepada para mahasiswa yang akan melakukan kerja praktik diharap untuk mempersiapkan diri dengan mempelajari materi yang akan diterapkan dalam instansi penyelenggara, agar memudahkan dalam melaksanakan kerja praktik.
2. Kesepakatan dalam pengerjaan proyek perlu diperhatikan diawal agar tidak terjadi kesalah pahaman yang membuat anak magang harus menambah pekerjaannya.

Gambar Lampiran Code 2

Pada gambar diatas merupakan source code pada bagian aksi_dosen

The screenshot shows a Microsoft Visual Studio Code window with the following details:

- Title Bar:** File, Edit, Selection, View, Go, Run, Terminal, Help, nwayatku.php - public_html - Visual Studio Code
- File Explorer:** Shows files like index_dosen.php, nwayatku.php, detailriwayat.php, dosen.php, Release Notes 1.68.1, detail.php, editdosen.php, and editriwayat.php.
- Code Editor:** Displays PHP code for a module named 'dosen'. The code includes a switch statement for different actions (add, view, edit, delete) and handles form submissions for adding new data.
- Status Bar:** In 41, Col 94, Space: 4, UTF-8, C9E - PHP, Go Live, 6021 PM, 9/5/2022
- Taskbar:** Shows icons for File, Open, Save, Find, Replace, Copy, Paste, Cut, Undo, Redo, and other standard Windows file operations.

Gambar Lampiran Code 3

Source code diatas merupakan source code untuk “Riwayat Keluarga”

A screenshot of the Visual Studio Code interface. The title bar shows "File Edit Selection View Go Run Terminal Help" and "nwaytklph - public_html - Visual Studio Code". The left sidebar has icons for file, folder, search, and refresh. The main editor area contains PHP code for a form. The code includes echo statements, form tags, input fields, and conditional logic for gender selection. The status bar at the bottom shows "In 41 Col 94 Space: 4 URF: PHP Go Live".

```
echo "
<form method='POST' action='?aksi?module=dosen&act=inputriwayat'>

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
